

MOOK/GIESINGER AWARDS

Mr. Chester Mook and Mr. Anthony Giesinger established this award in 1999. Mr. Giesinger shared that no matter how hard he and Mr. Mook worked, they were never able to get the top marks in class. For that reason they donate each year to encourage young students to persevere and keep giving their best.

Diligence Awards (\$50 for a student in each grade 1-6) given at year end to students who work hard, show much improvement over the year, and display an excellent attitude and effort.

Each student receives an engraved medal and their name is engraved on a school plaque.
