

Background

The Division recognizes that, from time to time, because of lengthy illness, accident or other disorder, a student may be confined to his/her home or in hospital for extended periods of time.

The Division realizes that the student’s educational instruction may be curtailed during a lengthy illness, accident or other disorder and will provide support as approved by the Superintendent.

Procedures

1. Chronic Illness: Upon the recommendation of a physician, the principal may, with approval of the Superintendent, provide up to three half days per week of home or hospital tutorial.
2. Accidental or Temporary Illness: Upon the recommendation of a physician and following five consecutive school days of absence from school due to accidental or temporary illness, the principal, with approval of the Superintendent, may provide up to three half days per week of home or hospital tutorial.
3. Online educational opportunities may be offered depending on the circumstances involved.
