

Administrative Procedure 331

STUDENT DRESS CODE

Background

Dress influences the attitudes of students to themselves and to their work. Just as there is a mode of dress suited to the playing field or the gymnasium, to various social activities, and to formal functions, so there is a mode of dress suited to the classroom. Our commitment to educate the "whole" child so that students can be contributing members of society necessitates that children learn respectable modes of dress.

Students will be expected to dress in a modest and appropriate manner. It is the expectation that all students be clean, tidy and respectful in appearance.

Procedures

1. The principal, in consultation with staff, School Council and Student Council shall further define appropriate dress for the school.
2. The principal, in consultation with staff and School Council, shall develop procedures on how best to deal with students who are inappropriately dressed. These procedures shall be communicated to parents at the beginning of each school year and at other times when necessary.
